

Commitment Statement on Countering the U.S. Opioid Epidemic

RBC Limited, an award-winning national consultant company, recognizes the need for a national coalition and response to the opioid crisis in the United States. Our company, which provides education and consultative services to health care organizations, has focused on teaching alternative methods of pain management, teaching clinicians and practitioners how to recognize addiction, develop drug diversion programs, and to work collaboratively within the community to enhance prevention programs as well as treatment and recovery services. We are passionate about our work and excellence in patient care.

RBC Limited wholly supports the Action Collaboration and its goal of sharing information, best practices and developing new practices, based upon research, to assist in the resolution of this epidemic.
